

Suggested Packing List for Staff

It is challenging to create one packing list that will work for all staff. Certain camp jobs might require different clothing and staff traveling from far away are limited in what they can bring. This list should serve as a guide, but, ultimately, what you bring to camp is up to you.

Helpful Tips

- Bring enough clothes for 7-10 days. Most staff do laundry once each week.
- Temperatures can vary quite a bit. It may be cool in the beginning of the summer and during the evenings. You will need some warmer clothes.
- It is helpful to have t-shirts in a few different colors as we often dress in colors for team games and other activities.
- Many items, including toiletries and towels, can be purchased at Super Wal-Mart located near camp. For those traveling from overseas, purchasing these items in the U.S. will save you space while packing.

Items to Bring
